

OFFICE OF THE GOVERNOR

OCT 9 2015

To the Members of the California State Assembly:

Unregulated marijuana cultivation poses one of the greatest threats to our fish and wildlife in the state.

AB 243 sets California on a new path for responsible marijuana cultivation, but the damage to our ecosystem is occurring today. I am directing the Natural Resources Agency to identify projects to begin the restoration of our most impacted areas in the state.

Sincerely,

  
Edmund G. Brown Jr.
