1760	Department of General Services	Report on analysis conducted by Office of the State Architect regarding the mechanical, electrical, architectural, and structural systems of the property to determine the adequacy of these systems	Item 0860-001-001 of Section 2 of the Budget Act of 1992	No less than 45 days before entering into lease-purchase agreement for real property located at 450 N Street in Sacramento	Remove from LCB list. DGS recommends the report be deleted from the Legislative Counsel list because this was a one time report to assess the building prior to purchase, the State has since purchased the building at 450 N Street.	X
1760	Department of General Services	Study to determine cost effectiveness of contracting out for architectural and engineering services and appropriate level of architectural and engineering staff over the long-term at Division of the State Architect	Item 1760-001-0602 of Section 2 of the Budget Act of 1996	2/1/97	Remove from LCB list. DGS recommends this report be deleted from the Legislative Counsel list because this was a one-time study completed in 1997. The recommendations from the Arthur Anderson Report were implemented resulting in the creation of the Real Estate Services Division.	X
1760	Department of General Services	Costs of environmental mitigation incurred in course of Department's accomplishment of its statutory mission	Item 1760-001-0666 of Section 2 of the Budget Act of 1996	At budget hearings annually	Remove from LCB list. DGS recommends this report be deleted from the Legislative Counsel list as the information is no longer of value. This report appears to be a program-specific report for the Seismic Retrofit Program; the first and only report to the Legislature does not mention any other DGS programs or projects. This report was done 15 years ago and has not been prepared since. The seismic bond program is closing and there is not a critical need for this annual report.	X
1760	Department of General Services	Report on State building earthquake risk assessments to develop proposed retrofit solutions and cost estimates	Item 1760-301-0768 of Section 2 of the Budget Act of 1998	None	Remove from LCB list. DGS recommends this report be deleted from the Legislative Counsel list as the report was a one-time report and was completed and submitted as required.	X
1760	Department of General Services	Report of the performance of the Real Estate Services Division during the preceding year in meeting capital project delivery goals	Item 1760-001-0666 of Section 2 of the Budget Act of 2000	Annually	Remove from LCB list. This report is no longer required as the same information is available in the DGS Quarterly Status Report for Capital Outlay Projects. Additionally, the audience which receives this report is the same audience which receives the Quarterly Report. Eliminating this report would eliminate the redundancy created by issuing both reports.	X
1760	Department of General Services	Report detailing the capital outlay project or projects specified in Item 1760-301-0768 of the Budget Act of 2001 that have been reduced in seismic risk level, the project or projects for which preliminary plans will be developed, or the redirection of project savings within the appropriation	Item 1760-301-0768 of Section 2 of the Budget Act of 2001	If the change in funding specified in Item 1760-302-0768 of the Budget Act of 2001 occurs	Remove from LCB list. DGS recommends this report be deleted from the Legislative Counsel list because the work associated with this Budget Act has been completed.	X

1760	Department of General Services	Report detailing the capital outlay project or projects specified in Item 1760-301-0768 of the Budget Act of 2002 that have been reduced in seismic risk level, the project or projects for which preliminary plans will be developed, or the redirection of project savings within the appropriation	Item 1760-301-0768 of Section 2 of the Budget Act of 2002	If the change in funding specified in Item 1760-301-0768 of the Budget Act of 2002 occurs	Remove from LCB list. DGS recommends this report be deleted from the Legislative Counsel list as the report was a one-time report and was completed and submitted as required.	X
1760	Department of General Services	Report on all new, renovated, and leased buildings and their LEED certification status; all existing buildings that have achieved LEED certification and the level of certification, including those certified in accordance with the department's Green Building Initiative; and the status of LEED recertification for buildings that have been LEED certified, including those recertified in accordance with the department's Green Building Initiative; included in the report, information demonstrating whether or not the certifications and recertification's are consistent with the schedule provided in the initial report	Item 1760-001-0666 of Section 2 of the Budget Act of 2007	Annually	Remove from LCB list. DGS recommends deleting this report as it is redundant in that this information on LEED certification status is included in the report required in GC 15814. While the language in GC 15814 does not specifically require information on LEED, that information is included in the report. Even though LEED covers more than just energy efficiency, energy is a large component in certification, so any LEED project by default appears with energy efficiency projects.	X
1760	Department of General Services	Report regarding existing leased space in the City and County of San Francisco that shall include the projected need for future space in the San Francisco area; DGS' practices in regards to reviewing potential consolidation of space requests from multiple departments; the DGS review of alternative locations for space requests in the City or County of San Francisco; and an accounting of identified program needs, as specified	Item 1760-001-0666 of Section 2 of the Budget Act of 2008	None	Remove from LCB list. DGS recommends this report be deleted from the list for the same reasons mentioned above. Even though LEED incorporates more than just energy efficiency, energy is a large component in certification, so any LEED project by default appears with energy efficiency projects, so this information is included in the report required by GC 15814.	X

1760	Department of General Services	Architectural Revolving Fund Deficit	Section 4.70, Chapter 268, Statutes of 2008	Annual	Remove from LCB list. Recent discussions with DOF staff indicate that updates regarding the ARF Deficit can be handled through informal meetings between DGS and DOF staff.
